

ACD Systems Announces Independence Day iOS App Giveaway

The ACDSee iOS App Will Be Available to Download for Free From the App Store July 4th for American Independence Day

SEATTLE, WA and VICTORIA, BC--(Marketwired - Jul 2, 2015) - ACD Systems today announced they will be putting the ACDSee iOS App available for a free download from the App Store on July 4th in celebration of American Independence day.

The ACDSee iOS app was introduced in November 2014 and is designed to help users capture and perfect photos all from their iPhone or iPad. The app provides a professional-grade camera, a powerful photo editor and a creative collage maker all in one app with unique features such as the advanced Selfie Mode. ACDSee's Selfie Mode includes a front-facing camera with a front flash and Skin Tune, a tool to both smooth and brighten skin tone enabling users to take the best selfie. Also included in this feature packed app is Shadows and Highlights -- a simplified interface for ACDSee's more advanced patented Light EQ technology.

"At ACD Systems we strive to consistently provide our customers with the best photography products at the best value," said Doug Vanderkerkhove, CEO of ACD Systems. "We're making our powerful ACDSee iPhone app free in celebration of American Independence day. Everyone should have great applications at their fingertips to capture the memories made on this exciting day."

The ACDSee iOS app requires iOS 8.1 and is compatible with iPhone, iPad, and iPod touch. ACDSee iOS is regularly priced at \$1.99 and the *Pro Pack* can be purchased for an additional \$4.99.

About ACD Systems

Founded in Texas in 1993 by imaging visionary Doug Vanderkerkhove, ACD Systems is one of the largest and most respected independent digital editing and management companies in the world.
