## About ACD Systems

In the 1980s, imaging visionary, Doug Vandekerkhove foresaw the convergence of analog and digital media, and in 1993 he founded ACD Systems International Inc. to answer the call of photographers everywhere. Today, ACD Systems holds seven patents, has products translated into eleven languages, and has produced millions of ACDSee products in use in every corner of the globe. ACD Systems develops revolutionary software in offices in the United States, China, and Canada.
