

ACD SYSTEMS RELEASES IMPRESSIVE VIDEO SOFTWARE READY TO MEET THE NEEDS OF OUR INCREASINGLY DIGITAL WORLD

VICTORIA, BC (August 12, 2020) Today, ACD Systems International launches [Luxea Video Editor](#), a brand new video editing tool that is set to revolutionize how you create, edit and publish videos.

With this new release, ACD Systems vastly improves its video editing offering. There's a focus on features that simplify complicated editing processes, saving you time, and allowing you to focus on the output.

With Luxea, you can detach your viewing area to see your edits in greater scale, manage gaps between media with ease, and reduce your playback quality to review edits more quickly. You can take advantage of filters, effects, behaviors and transitions to communicate your vision. As well as this, Luxea offers you total control over your video editing and production at a price that blows away competition – just \$29.99 per year.

In a world where everyone is migrating to digital tools and services, companies and individuals are turning to video to create enriching experiences for others. Luxea is designed to take those videos to the next level.

“Whether you are a freelance creative, an educator, a YouTuber, a gamer, a business, or a marketer, Luxea lets you showcase your work, your products, and helps you provide an immersive story. With Luxea, you can make impressive videos and edits that will wow your audience.” - Frank Lin, COO

Top features:

- Record, edit, and produce videos up to 60 fps and up to 4K.
